## DARE YOURSELF

If you do not dare to take a chance, you will never reach what is at the end of the rainbow. We encourage everyone to dare a little more and to make more exciting decisions. To always see opportunities instead of limits. Choose your own path, your own style, choose what feels right. Go with your gut feeling or ignore the rational angel on your shoulder.

At SACKit, the phrase “Dare yourself” is the basis of our philosophy. We see opportunities. We dare to believe in them. This is where our success lies. We dare to challenge the existing and to believe in new possibilities. For instance, we refuse to compromise on a design, even though manufacturers tell us it is impossible. We dare to find a way. We dare to make products that are better designed, better priced, and in better quality than the existing.

Our products are Danish designed multi-functional lifestyle items with beautiful Scandinavian aesthetics. You will always find more than one purpose for your SACKit product. Our designs are created for the modern, active lifestyle, which requires high flexibility, usability and exclusive design.

High-end beanbags, lounge furniture, trays, and speakers from SACKit provide you with a complete portable lounge for the living room, the porch, the children’s playroom or the holiday journey.

# NORDIC TABLES

EXCLUSIVE ELEGANT DANISH DESIGN

## NORDIC TABLES

### ELEGANT TABLES IN LIGHT OAK AND BLACK LACQUERED BIRCH

The sofa tables and side tables in the SACKit Nordic series have a sculptural and simple Scandinavian look. All the tables are Danish designed in collaboration with the renowned Aalborg design duo, Steffensen & Würtz.

You will find the tables in different sizes, which all have the same visual look, so they match each other perfectly in your décor. The frame has two transverse pieces of wood, forming a cross between the table legs. The cross-section is formed so that the frame visually changes look depending on from which angle you view the table.

The tables are available in two wood types; light oak and black lacquered birch wood. The light wood results in a natural and dynamic look, which gives a perfect Scandinavian look to your home. The black-lacquered wood contributes with a very classic style, and can simultaneously help give your décor an edge. On the black table, the table top is treated with the super durable FENIX nanolaminate, which has an incredibly beautiful matt surface. FENIX nanolaminate is known for being resistant to fingerprints, scratches and dirt. It means that you'll have a product that is super easy to clean and lasts for years.
